Is the PMA a threat to security?

GRADUATES of the Philippine Military Academy are lording it over members of the Armed Forces of the Philippines and the Philippine National Police. The heads of the AFP, PNP and Department of Interior and Local Government are graduates of the academy. So are the executive secretary, national security adviser and transportation secretary.

PMA graduates also led all the coup d'etat attempts in the country since 1986.

Even the military officer in the center of one of the biggest corruption scandals in the AFP is a PMA graduate—Major Gen. Carlos Garcia (Class of 1971), a former AFP comptroller accused of amassing P143 million in ill-gotten wealth.

Because it "produces millionaires," the PMA has been derisively called the "Philippine Millionaires Academy" and the "best business school in the country."

The corruption scandal highlighted the role of the mistah culture in the military, classmates protecting their own until other institutions stepped in.

The problem in the military is not only corruption but also monopoly of power, says a retired lieutenant general. He says this monopoly arises from the "regular officer homogeneity," which according to him, poses a threat to national security.

To avoid a monopoly of power by PMA graduates, he proposes the putting up of naval and air force academies.

MOVING in the right Circles. Circles, the restaurant and events café, opens this week. It's touted to be the largest dining and entertainment hot spot in Metro Manila. Its concept is not new but has been taken a step further in the inimitable Shangri-La way.

Circles will be unveiled in a huge way on Nov. 11. It boasts of five theater kitchens divided into cold (appetizers and salads), Asian (it has an authentic rainbow kitchen), Western (steaks, pizzas, burgers), seafood (grilled fresh catches and sushi and sashimi) and lastly, sinfully delicious desserts.

The Makati Shang is my second home. It is a hotel that has unmatched dynamism, sophistication and service. Whenever I have friends from abroad who ask me where they should stay and dine, I always recommend the Shang.

Circles was designed by the award-winning [illegible] and Associates of Palm Beach. [illegible]

Hugs and misses

By Gilda Cordero-Fernando

SEEING the bigger picture, realizing how everything in your life was planned by a Higher Force, from the very beginning, understanding how the cookie crumbles, how every piece fits, oh, so perfectly, is probably the biggest bonus of growing old. You know all the different reasons why you became you.
